MESSAGE

1. The Chanakya Aerospace Defence and Maritime Review is India's one of the oldest and leading Aerospace and Defence magazine covering Defence, Aerospace, Naval/ Maritime spectrums with special focus on evaluation of global systems and equipment with latest information and technical details. The magazine is a source of reliable and insightful analysis into defence and defence related affairs and has a vast circulation across all continents with subscribers from 63 countries worldwide. The magazine also has been official media partner for major international air shows and defence expos within India and abroad.
2. DefExpo 2022 unfolds the transformation of Indian defence ecosystem with a flourishing indigenous defence technology. The Defence Expo will be manifesting India's indigenous defence technology and manufacturing potential as a global defence manufacturing hub. The aim of the exhibition is to bring the latest in defence technologies, defence R&D and defence manufacturing firms in India on a single platform.
3. The special 600th issue of The Chanakya Aerospace Defence and Maritime Review published on the occasion of DefExpo 2022 is a befitting accolade to the mega event. The special edition provides an overview of what India has achieved in terms of defence related developments within the country and related international events of importance.. I am confident that the insights and analysis will make this edition as an indispensable reference guide for defence enthusiasts, R&D institutions, weapons manufacturers, defence industries and analysts alike.
