It is heartening to know that the magazine "Chanakya Aerospace & Maritime Review" is completing 40 years of its monthly publication and 45 years in Defence publication.

I am given to understand that as Tri-Services monthly news magazine dealing in diverse subject relating to defence, it has been able to attract Indian as well as international scholars and strategic analysts to its fold, which is really commendable.

I extend my greetings to the Editor and the staff of 'Chanakya' on this auspicious occasion and wish them grand success in their future endeavour.
